

in partnership with

and

Telehealth Services for NCCBG Members.

Simple. Convenient. No Consultation fees*. MeMD is an easy and trusted way for adults and children to request visits with board-certified medical providers on demand for minor illnesses and injuries. Get the care you need, when and where you need it—online, by phone, or using the NexGenEAP app—24/7/365.

Use MeMD when:

- **You're not feeling your best.** Our medical team can diagnose common medical concerns and offer personalized care.
- **You need a short-term prescription.** MeMD providers can send new prescriptions and short-term refills to your pharmacy when medically necessary**.
- **When you are unable to receive care in person.** Illness and injury may happen at inconvenient times, or when you are unable to travel - That's why care is offered 24/7/365.

Enrollment available JANUARY 2021 for all NCCBG Members!

* \$0 medical (urgent care) visits are capped at three per individual, per month. Each medical (urgent care) visit above the cap will be charged at MeMD's then-current standard medical (urgent care) visit fee rate, which will be collected at the time of service.

** When medically necessary, MeMD's providers can submit a prescription electronically for purchase and pick-up at your local participating pharmacy; however, MeMD providers cannot prescribe elective medications, narcotic pain relievers, or controlled substances. MeMD's providers are each licensed by the appropriate licensing board for the state in which they are providing services and all have prescriptive authority for each of the states in which they are licensed.

MeMD TeleHealth: Eligibility & Billing

A NCCBG member benefit made possible through the partnership of eni and the NC Craft Brewers Guild.

Any company who is a current, dues-paying member of the NC Craft Brewers Guild (Brewery & Allied members) is eligible to register their employees for this exclusive benefit of membership.

The NC Craft Brewers Guild will handle the administrative functions of program registration, billing and payment. ***Fees are \$34.75/year per employee, and includes coverage for the employee's spouse and dependents. (TeleHealth & EAP member benefits are offered as complimentary, yet separate, member benefit programs, and will be billed as unique charges.)*** The NC Craft Brewers Guild serves as the umbrella company in order for all Guild member companies to benefit from deeply discounted rates.

Guild member companies can register their employees for the MeMD TeleHealth program, by contacting Lisa Parker at lisa@ncbeer.org. The NC Craft Brewers Guild will generate an invoice payable online by credit card via your company's membership account on NCBeer.org. Your invoice will be calculated based on an annual rate of \$34.75 per employee. *(For example, if your brewery has 12 employees being registered for the TeleHealth benefits program, your invoice from the Guild will reflect an annual charge of \$417.00.)* This rate has been guaranteed against price increases through August of 2022.

Once the invoice has been paid, your TeleHealth benefits will begin on the 1st day of the following month, and will continue uninterrupted for one calendar year from your start date. Renewals will be billed 30 days in advance of the term's end. Any additions, transfers or deletions of personnel will be on a pro-rata basis within that benefit year.

Companies taking advantage of this Guild member benefits program, can offer these services to their employees either as a fully sponsored benefit paid for by the company, an employee supported benefit, or as a shared cost through your payroll system.

Companies will need to provide us with the first and last name of each employee who would like to be registered for the program, along with their email address. *It is up to the member company to keep this listing current with the Guild.*

Upon enrolling you will receive a welcome package with instructions for accessing TeleHealth services for both your company and your employees. This information is sent directly to your company and is never seen by the Guild. All interactions between users of the MeMD services provided by ENI, are held in confidence under HIPAA guidelines so neither the Guild nor the employer has access to those discussions or medical records.
