

2019 Novel Coronavirus (COVID-19)

NCCBG Coronavirus Update: 03.09.20

Dear Guild Members,

COVID-19 (novel coronavirus) continues to spread around the world to more than 100,000 infected, and North Carolina has seen its first two cases in the past week. This virus has had a dramatic impact on public health, the world's psyche, and financial markets. And while chances of contracting the virus are still comparatively low, it is imperative as businesses that serve the public that you take steps to protect your customers and employees.

Gov. Roy Cooper set up a coronavirus task force to help combat the virus and they are urging businesses and residents to start taking action in preparation for a potential outbreak of the virus here in the state. Officials are advising that all businesses and residents start reviewing their options for Telehealth and working remotely.

We have attached several websites that will have the latest accurate information on the disease and steps you can and should be taking. BE PROACTIVE... The Guild will continue to monitor the situation and will work to help keep you informed.
